

Magnetic Springs

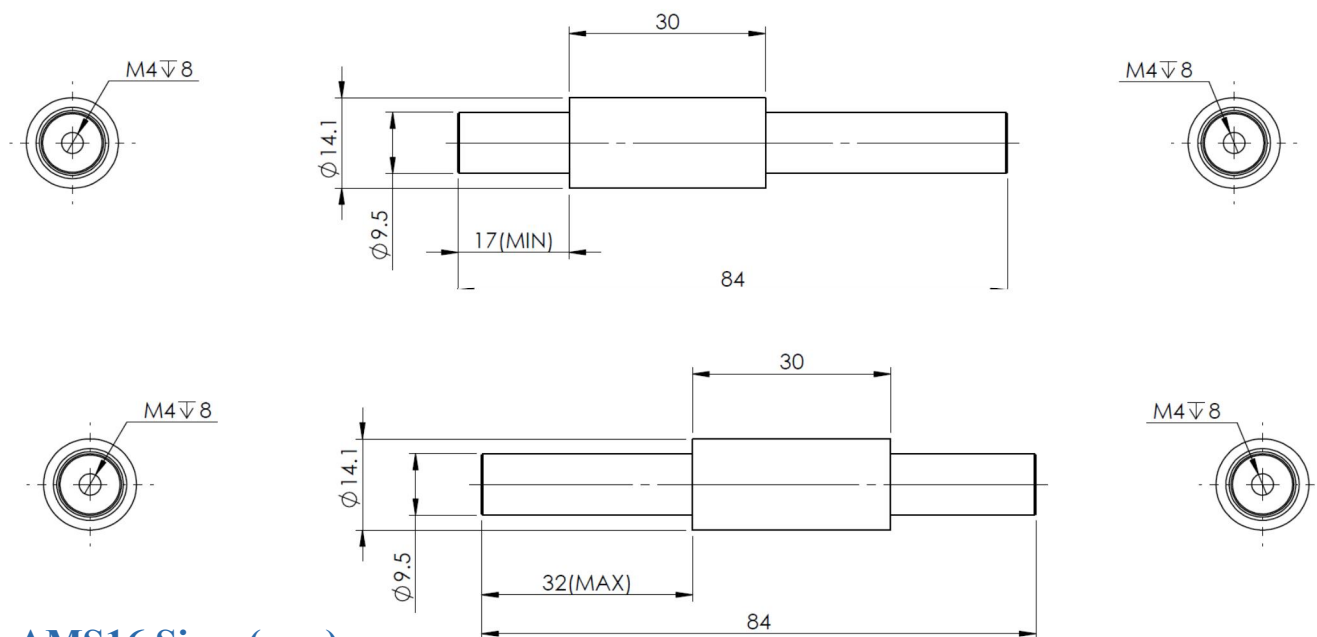

- Generate a constant force over their entire working range.
- No external energy supply.
- For balancing weight force in vertical drive applications.
- Constant Force: 20N – 110N
- Can customized force and working rang for requirements.

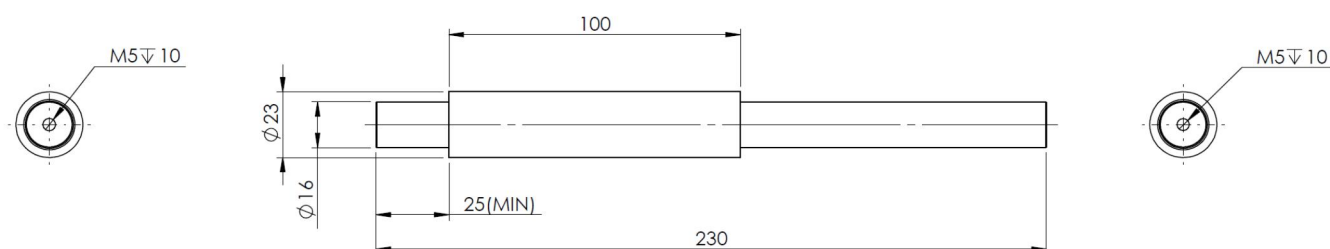

Specification:

Type	AMS09	AMS16	AMS25	AMS32
Constant Force (N)	4-7	10-20	20-65	65-110

AMS09 Size :(mm)

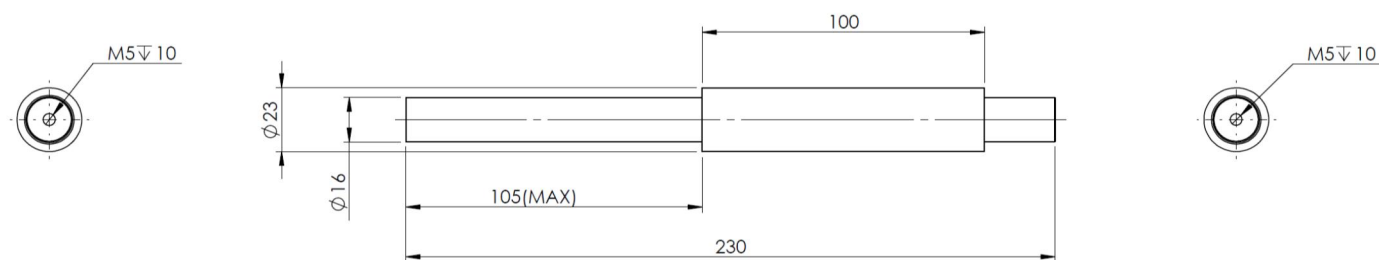

AMS16 Size :(mm)
