專題報告

與馬利曼預測不謀而合

在3月2日發表的3月份「月刊」之《金融星象周期》一欄中,筆者提到以下幾個要點:

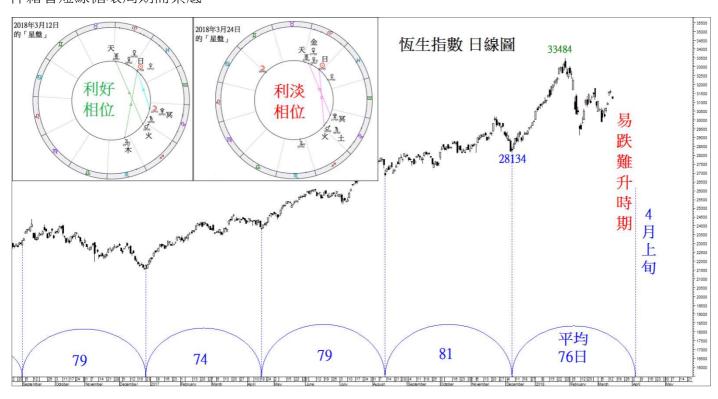

第一,3月中之前,利好相位應該支持恆指向好。具體而言,三個利好「相位」包括:火星與天 王星的「三分相」、太陽與冥王星的「六分相」及太陽與木星的「三分相」。這三個「相位」會先後在 3月11日至3月14日期間發生;

第二,火星將會在3月17日開始「越界」(Out of Bounds, OOB)周期,直至4月9日結束為止。 另外,水星將會在 3 月 23 日開始「逆行」周期,並會維持至 4 月 15 日才結束。因此,3 月中/下旬 應為升勢逆轉的時間窗;

第三,3月24日以後,多個利淡的「相位」會陸續登場,令市場情緒由3月中之前的樂觀轉為3 月下旬之後的悲觀。這些利淡「相位」包括:金星與冥王星的「刑相」、太陽與火星的「刑相」、金星 與天王星的「合相」及太陽與土星的「刑相」,發生日期是介乎3月24日至3月29日之間。

另外,上周五發表的「跟進周刊」提到:「恆指平均76日循環低位周期理論上在4月上旬見底, 在未來三星期內,恆指仍是易跌難升。」,見下圖。

綜合而言, 越接近3月的下半月, 恆指向下發展的可能性就越大, 直至復活節假期之後, 才有條 件藉着短線循環周期而築底。

馬利曼的星象周期分析

金融星象周期大師馬利曼(Raymond Merriman)每星期都會在其網站提供「免費每周預覽」(Free Weekly Preview),詳見 https://mmacycles.com/index.php。

2018年3月12日的「免費每周預覽」之部份內容節錄如下:

The final Jupiter transit in the March 1-13 time band ends on Tuesday, with the Sun making a waxing trine to Jupiter. As discussed in Thursday's meeting with subscribers, this is one of 22 planetary signatures that have a 75% or greater historical correlation to 4% or greater reversals in stock prices within four trading days, as published in <u>The Ultimate Book on Stock Market Timing Volume 3: Geocosmic Correlations to Trading Cycles</u>. Usually, it is a high. From the low of Friday, March 2, at 24,217, the DJIA has already achieved the 4% rally level within four trading days (4% would be a move up to 25,185, and it closed up 435 points on Friday, to 25,335). Let's see if it tops out within four trading days afterwards, which is in effect into next Friday, March 17.

As if to underline the volatility of stock indices right now, two more of these 22 geocosmic volatility signatures will be present before this end of this month. On March 23, Venus will form its waxing square to Pluto, followed by the Venus/Uranus conjunction of March 28. If you have been hoping for some steadiness in the stock market or the national political scene, March is not likely to be the month that will accommodate that wish. But if you like volatility and conflict, as does Mr. Trump, March is the month for you, especially since transiting Uranus continues to plow through the last degrees of Aries, conjunct the NYSE Saturn, while at the same time in opposition to the NYSE Jupiter/Neptune conjunction (23-27 Aries-Libra). This volatility may recede after mid-April when the last new moon in Aries will occur near Uranus in Aries, before the 84-year Uranus cycle moves into Taurus on May 15. That will open a new chapter in this "Great Reset" era that we have the honor of experiencing.

即使閣下擁有良好的英文根底,也未必能夠理解上文的所以言。筆者會翻譯部份內容的大意,讓各位參考。

The final Jupiter transit in the March 1-13 time band ends on Tuesday, with the Sun making a waxing trine to Jupiter.

隨着太陽與木星在 3 月 13 日(香港時間 3 月 14 日)形成「三分相」之後,整個木星「相位」發揮 利好作用的時間窗(3 月 1 日至 3 月 13 日)亦會暫告一段落。

This is one of 22 planetary signatures that have a 75% or greater historical correlation to 4% or greater reversals in stock prices within four trading days. Usually, it is a high. Let's see if it tops out within four trading days afterwards, which is in effect into next Friday, March 17.

據統計,一共有 22 個星象周期會導致股市有逾四分之三機會出現 4%或以上的轉角市,3 月 14 日的太陽與木星「三分相」就是其中之一。且看美股會否在 3 月 17 日或之前見頂。

As if to underline the volatility of stock indices right now, two more of these 22 geocosmic volatility signatures will be present before this end of this month. On March 23, Venus will form its waxing square to Pluto, followed by the Venus/Uranus conjunction of March 28.

在 22 個與波動市況有關的星象周期中,有兩個會在 3 月底之前發生,分別是 3 月 23 日(香港時間 3 月 24 日)的金星會與冥王星 270 度「刑相」及 3 月 28 日(香港時間 3 月 29 日)的金星與天王星的 0 度「合相」。

If you have been hoping for some steadiness in the stock market or the national political scene, March is not likely to be the month that will accommodate that wish. But if you like volatility and conflict, as does Mr. Trump, March is the month for you, especially since transiting Uranus continues to plow through the last degrees of Aries, conjunct the NYSE Saturn, while at the same time in opposition to the NYSE Jupiter/Neptune conjunction (23-27 Aries-Libra).

如果期望股市和美國政局會在 3 月平穩發展,能夠如願的機會不大。但如果閣下像總統特朗普般喜愛波動市況和政治衝突,則 3 月將會是你的月份,尤其是當天王星繼續在白羊座的尾段緩緩前進,一方面與紐約交易所(NYSE)「命盤」(1792 年 5 月 17 日)的土星形成「合相」;另一方面與木星及海王星形成 180 度「衝相」(白羊座與對宮天秤座的 23 度至 27 度範圍)。

This volatility may recede after mid-April when the last new moon in Aries will occur near Uranus in Aries, before the 84-year Uranus cycle moves into Taurus on May 15. That will open a new chapter in this "Great Reset" era that we have the honor of experiencing.

在天王星於今年 5 月 15 日離開白羊座之前,最後一次於白羊座內形成的「新月」將會在 4 月中發生,屆時波動的市況可能會退卻。而天王星離開白羊座亦會為「大重啟/大重設」時代開啟新的一個章節。我們有幸可以親身經歷這個「大時代」。

總結

簡單來說,馬利曼以星象周期預測:2018年3月是美國股市及政經形勢波動及凶險的月份,在3月中之前,美股有機會見頂回落,而回落幅度在4%或以上。股市的跌勢有機會維持至4月中才結束。巧合地,特朗普昨日突然宣佈解除國務卿蒂勒森的職務,頓時令美股及政界震盪,或許是動盪政經局面的開端。

筆者的 3 月份「月刊」在 3 月 2 日發表,比起馬利曼的預測早一個多星期,但兩者對股市的展望卻不謀而合,實在與有榮焉。
