謝氏過去十數年從不同渠道搜羅及研究與星象周期相關的零碎資料，去蕪存菁，編制成全港獨有的金融星象周期教學課程，讓學員可以系統地掌握有關的知識。課程內容並非只屬理論，謝氏每星期都應用於繪製「恆指短線預測路線圖」，供其收費評論的訂戶參考，學以致用。「分析缺周期，一切也枉然！」 謝榮輝

Curtis, having spent almost a decade to collect and study scattered and fragmentary materials related to Astro-cycles, has compiled a course for students to learn astro-cycle approach to market analysis in a systematic way. The course material is by no means theoretical. Pragmatically, Curtis applies them to his weekly newsletter to generate "Short-term projection lines of Hang Seng Index" for subscribers' reference. "Analysis is nothing without market timing!" Curtis Tse
